Join and you can enjoy...

Knowing that you are helping to create and support a vast new forest, leaving a positive legacy for generations to come. The landscape will be transformed to provide **new habitats**, including woodlands, grasslands, ponds and hedgerows.

And thanks to you **native broadleaf trees**, like oak, ash and silver birch, will flourish in this area once more.

Accessible woodlands, teeming with wildlife, will encourage everyone to reap health benefits and gain a sense of well-being from our beautiful countryside.

The National Forest is a new wooded landscape for the nation across 200 square miles of the very heart of England. Eight million trees have been planted and woodland cover has increased from 6% in 1991 to over 19% today.

// I can visit the Forest whenever I like, to walk through woodlands and watch the trees grow. It's good to know I'm part of something so positive. //

Wildlife habitats are being created and improved. Otters are back in the area for the first time in decades, birds of prey are a regular sight and wildflowers are blooming across the Forest.

You will also receive...

A tree planted in the Forest with a personalised certificate expressing our gratitude.

A newsletter to keep you up to date with progress, stories and events in the Forest.

An invitation to special events for you and a friend – a talk, walk, lecture, or visit to a place of interest in the Forest.
